

NICS Ramblers - Isle of Man Walking Trip - July 17-21, 2026

If you thought that the Isle of Man was only famous for motorcycle racing, then think again! The Isle of Man has some fantastic walking opportunities, and it really is a hidden gem. Experience the Island's breathtaking landscapes along its fabulous coastal trail the Radd Ny Foillan and soak up the charm and tranquility of the numerous countryside trails from mountain moorland in the south, and the glens, beaches, and dunes of the north. We will walk the beautiful coast-to coast walk from Peel to Douglas and sections of the coastal trail in this short but stunning walking trip.

Travel

In the summer of 2025, the travel options were regular Easy Jet flights from Belfast International, Air Lingus flights from Belfast City and a daily ferry service from Belfast. I will have a better idea of travel options in early 2026. There are numerous flight/ferry options from Dublin also.

Accommodation

We will stay in Douglas, the capital of the Isle of Man. There are hotels and B&B's to suit every budget. Douglas has excellent transport links and is a good base with lots of food/bars/shops options.

Expressions of interest are sought at this stage only, please do not book anything yet. Due to the short duration of the trip (3 walking days) I am aiming for folks who want to walk and explore this magical island. I will cap numbers at 10 due to the impact on local transport.
